## NANG-CATS SIM Building Fire Truck Bay

Ironhide Construction was selected to be the General Contractor on this project. The new addition is a 2,355 SF, PEMB. The Sim Building Fire Truck Bay Addition gives the NANG a new place to park and maintain their fire trucks. It features a partially covered driveway to keep the weather off the trucks while washing, high R-value insulation in the walls and roof, and new paved areas outside the building for trailer storage.
