

1810 HANGAR

Client Name:

Lincoln Airport

Date Completed:

Location:

Lincoln, NE

General Contractor:

Hausmann Construction

Architect

Davis Design

Size:

11,000 sqft

1810 Hangar is an 11,000 sqft pre-engineer metal building project here in Lincoln, NE. Ironhide was brought to work with Hausmann Construction as a subcontractor to erect the metal building. This will be a new, pre-engineered CHIEF Building, addition to the Lincoln Airport. This is the second Hangar we have constructed.

Project Manager: Loren Laschanzky
