

## SAM WAGEMAN BUILDING

Client Name:  
Robert Carlisle

Date Completed:  
October 2019

Location:  
Elkhorn, NE

General Contractor:  
Ironhide Construction

Architect  
Schleining Architects

Size:  
4,480 sq. ft.

Sam Wageman building was a 4,480 square foot building that we had the pleasure of being the general contractor on. This was a personal storage building and a play space for their kids to play basketball. Challenges throughout this job were the installation of the high R value insulation roof and walls. Even with the challenges and the rain throughout this year we were able to get this Pre-Engineered Building up rather quickly.
