## Woof! Dog Care Center

Woof! Dog Care Center is a project that consisted of a 15,750 SF Pre-Engineered Metal Building. Ironhide Construction erected the building, installed the roof and wall panels, and installed high R-value Insulation throughout. The building's architectural features such as two dormers on the roof, as well as a large, covered entrance. The contrasting stone masonry and the red metal panels gave this building a unique stylish look that the owners are proud to show off.
