BNSF Car Shop North Wall & Restroom Remodel

This highly complex project for BNSF Railway required use of every aspect of our construction services at Ironhide Construction. This project also required detailed coordination with the railroad as not to disrupt or impact their business. Ironhide Construction removed the existing siding and structural restoration was provided on all impacted columns. We installed a 5' concrete wall, insulated metal panels and polycarbonate windows. Ironhide Construction provided a complete restrooom remodel with 28 stalls.
