## HACO ELECTRIC NEW METAL

Ironhide Construction erected a 34,520 SF pre-engineered metal building with stucco embossed insulated wall panels and architectural standing seam roof with a large cupola and two-offshoot buildings.

---

Ironhide Construction is a leading Midwest general contractor and structural restoration company. From design to project management to construction, Ironhide transforms metal into modern, custom buildings that are functional and stylish. Ironhide Construction is also one of only a few companies in the region that specializes in the challenges of structural restoration, as well as develops phased maintenance plans for buildings, parking garages, and other structures. Ironhide approaches every project with transparency, accountability, and quality results from proposal to completion. Visit [IronhideConstruction.com](http://IronhideConstruction.com) for more information.
